6) An understanding of your current Bank Merchant Service Fees (MSF) paid (Credit and Debit). This is only needed to provide you with a detailed cost/savings analysis. $

Advantages of having ClickPOS integrated Merchant banking.
- As sale is finalised in ClickPOS, EFT transaction/amount is automatically updated from ClickPOS to the pinpad. So you don't have to enter the amount to the terminal, therefore avoid mis-typing of amounts.
- Use one printer to print both customer and EFT receipt.
- View all transactions online. Traditionally, the your only reference is the paper receipts, now you can see all transactions online for all your stores.
- The new system works via a secure web access therefore eliminate the use of extra telephone line.
