Description:	
Your Purchase Price: *	☐ Tick to Add Tax on Purchase Price

Sale | Sell Product | Refunds
Impact: Low
Directed To: Administrator

The system has now been updated to allow phone refunds from the main sales screen.

This will provide a centralised area to perform refunds and eliminate confusion.

Sale | Sell Product | Select Sales Rep
Impact: Low
Directed To: Administrator

☐ Change Purchase Price of a Product
☐ Allow Product Description to be Changed
☐ Search/Edit an Old Sale (Parked Sales Only)
☐ Lock Screen after Sale
☐ Sell SIM separately
☐ Show Listed Price of Phone on the Invoice
☑ SalesRep must be selected
☐ Do NOT Allow Deletion of Sale
☑ **Access the Repairs Screen**

A new security has been created to force sales reps to select a name beofore finalising the sale. This will stop the 'blank' sales from occuring.

Once the OK button is clicked on the sales screen a message will display pictured below prompting the user to select a rep name from the list.

Ren & Stimpy Phone Cover $15.00

A new security has been created to stop items from being deleted from an invoice or for an entire invoice to be deleted. The permission simply removes the 'del' option from the sales screen.

If a sales rep needs to delete an item or invoice they should contact their administrator and request for the deletion to be actioned on their behalf.

A new security has been created for our clients that add SIM cards to their stock. If it is important to monitor the stock of SIM cards this security should be used.

	It does not allow reps to scan the SIM into the field on the phone sales screen, the field becomes read only and forces them to create a separate entry in the sale. This will ensure that if the SIM is returned with the phone the full details of the SIM will be put back into stock.
